

This venue, which was previously of little interest to climbers due to its lack of adequate protection, is now Shetland's first sports crag. It offers varied climbing on good rock, less than 5 minutes from the road. The crag is sheltered and the first 3 routes are non-tidal, but the others require a low tide and a calm sea.

The imposing overhanging wall has yet to be conquered but promises to have some excellent hard lines.

Please note that grades for equipped routes are French sport grades, not British technical grades! (5 ≈ HVS)

Grid Reference:	HU 228803	Number of Routes:	11	Height:	6 – 12m	Approach Time:	5 mins
